Why we regularly share pupil information

We do not share information about our pupils with anyone without consent unless the law and our policies allow us to do so. Information is sent to Government Departments on children and young people directly from schools and the Local Authority normally as part of statutory data collection which consists of the following:

- Pupil Level Annual School Census
- Educated other than at school
- National data collection
- Attendance collection
- National Tests data collection

Information held by the School and Local Authority on children and young people and their parents or legal guardians may be shared with other organisations when the law allows, for example with;

- Other education and training bodies, including schools, when pupils are applying for courses, training, school transfer or seeking guidance on opportunities;
- Bodies doing research for the LA and schools, so long as steps are taken to keep the information secure;
- Social services and other health and welfare organisations where there is a need to share information to protect and support individual children and young people;
- Various regulatory bodies, such as ombudsmen, inspection authorities and Government fraud initiatives, where the law requires that information be passed on so that they can do their work.

The information collected is used to safeguard children and young people and to ensure appropriate contact details are available to contact parents / guardians.

The school and Local Authority also uses the information it collects to do research. It uses the results of the research to make decisions on policy and the funding of schools, to calculate the performance of schools and help them to set targets. The research also informs the education which is provided to children and young people for example:

- The provision of educational services to individuals;
- Monitoring and reporting on children / young people's educational progress;
- The provision of welfare, pastoral care, and health services; SEN and transport requirements; exclusions, attendance and nursery data
- The giving of support and guidance to children, young people, their parents and legal guardians;
- The organisation of educational events and trips;
- Planning and management of the school.
- Recording of monetary payments to and from pupils/students and parents/guardians.

Youth support services - Pupils aged 13+

Once our pupils reach the age of 13, we also pass pupil information to our local authority and / or provider of youth support services as they have responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- youth support services
- careers advisers

The information shared is limited to the child's name, address and date of birth. However where a parent or guardian provides their consent, other information relevant to the provision of youth support services will be shared. This right is transferred to the child / pupil once they reach the age 16.

Department for Education

The Department for Education (DfE) collects personal data from educational settings and local authorities via various statutory data collections. We are required to share information about our pupils with the Department for Education (DfE) either directly or via our local authority for the purpose of those data collections, under:

- Regulation 5 of The Education (Information About Individual Pupils) (England) Regulations 2013 – school census

All data is transferred securely and held by DfE under a combination of software and hardware controls, which meet the current [government security policy framework](#).

For more information, please see 'How Government uses your data' section.

How Government uses your data

The pupil data that we lawfully share with the DfE through data collections:

- underpins school funding, which is calculated based upon the numbers of children and their characteristics in each school.
- informs 'short term' education policy monitoring and school accountability and intervention (for example, school GCSE results or Pupil Progress measures).
- supports 'longer term' research and monitoring of educational policy (for example how certain subject choices go on to affect education or earnings beyond school)

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department.

It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies. To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-pupil-database-user-guide-and-supporting-information>

The law allows the Department to share pupils' personal data with certain third parties, including:

- schools
- local authorities
- researchers
- organisations connected with promoting the education or wellbeing of children in England
